

On Saturday, June 28th, the Russell Memorial United Methodist Men's group hosted an outreach project to "fix up" the house and yard of community resident, Rene Robertson. There were about 15 men who participated—they brought their power tools and yard equipment and went to work. The yard was tended to and minor carpentry work was done inside and outside the house. Mrs. Robertson, whose husband passed away about two years ago, was very appreciative for the help.
